

# Arizona Infectious Disease

---

## **INTRAVENOUS ANTIBIOTIC POLICY**

**Some Infectious Disease conditions may require intravenous antibiotics for prolonged period of time. We will work with you at each step for you to understand the treatment plan.**

- 1. Follow up with the provider at regular scheduled appointments to determine safety and compliance.**
- 2. Weekly lab draws.**
- 3. If you are a no-show for your follow appointments and/or weekly lab draw, it will be considered noncompliance and may result in discontinuation of care to minimize/prevent toxicity from ongoing unsupervised intravenous medications.**
- 4. Communication with provider as soon as possible regarding any adverse reactions to the medication or go to the nearest emergency room.**
